

Console-X Data Sheet

Console -X

The **Console -X** is the latest innovative mobile office solution to join the Mobile Desk brand family of products. This complete control, communication and convenience Utility Truck Console is becoming the new standard for fleets of all sizes. The design of the Console -X has originated from our years of experience of working directly with the lineman, supervisors, communications and fleet of some of the most notable utility companies in America.

The **Console-X** features a number of standard and optional integrations that maximizes your field force productivity.

The integrated computer mount option features an ergonomic double articulating arm with height adjustment and a positive stop tilt and turn.

Choose from one our locking laptop trays with shock control, any of our available docking stations or bring your own dock. The tilt and turn hole patterns will match up with most major laptop docking stations.

Improve Your Mobile Office Environment Today
