

# FIELD FORCE AUTOMATION

Case Study: JS Express

RFIDs: Coming of Age

Customized Solutions for Your Field Operations / July 2001 \$5.95

## KNOWLEDGE IS POWER

Transform Your Field Data  
Into a Corporate Asset

## Take Your Desk With You

Don't go back to the office to do your work—do it in the car! The AutoExec mobile organizer fits on your front seat, securely fastened with the passenger seatbelt, to give you the workspace and organization you need. The pullout work area with a clipboard allows mobile workers to comfortably complete work orders or take notes, while the nonskid surface prevents a briefcase, laptop or even a small fax/printer from sliding. Faxes can be received while you're on the road. The storage shelf under the nonskid surface houses pad holders, planners and binders. Pens, pencils, a cell phone or reading glasses fit nicely in the three cubbyholes, and the file area accommodates approximately 12 files in hanging folders. AutoExec weighs 19 pounds and measures 25 inches long by 25.5 inches wide. [www.mobiledesk.com](http://www.mobiledesk.com)

Road Tripping
