

## **Xpress Desk, the Practical Mobile Computing Solution**

The Xpress Desk is an inexpensive and practical solution for laptop users who need to use their vehicle as a mobile office. The unique design allows you to mount your laptop securely on your steering wheel so you can comfortably use your laptop while sitting in the driver's seat of your vehicle. The Xpress Desk is easily positioned by the existing steering wheel adjustment. Once you're done with your work, you can remove the desk and place it on the seat beside you or store it elsewhere.
